25X1A

 Comment. As compared with the last reported period, eastbound traffic through Scheune and Frankfurt/Oder increased, through the latter railroad station even by 30 percent. Westbound traffic through Frankfurt/Oder, Forst, Horka and Bad Schandau also increased. The traffic through Forst and Horka was probably in connection with increased coal imports from Upper Silesia. Westbound traffic through Warnemuende from Denmark and probably also from Sweden decreased.
